

Fruit Tree Pruning Workshop

Sunday 29th July 2018

Fruit tree Pruning & Horticultural Health

Kingsvale orchardist

Robert Fitzpatrick joins us again this year for practical pruning & grafting of local fruit trees.

Boorowa Community Landcare Group, together with South East Local Land Services invites you to a 'hands on' workshop for the home orchardist.

After the tremendous success of previous events, BCLG invite you out to a local home orchard for some practical experience, with expert advice. Rob Fitzpatrick will be demonstrating pruning/propagation/vineyard health and hygiene. If you missed the workshop last year, or if you want to learn more, join us for a great morning.

Heather McLeod & Paul Nelson who have a broad selection of examples in their small orchard in Boorowa, have kindly offered to host the day at their property on the Murringo Rd.

In winter, it's tempting to stay inside where it's warm, but a little bit of effort pruning fruit trees will pay off.

Boorowa Landcare Members Activity- All Welcome!

**When: Sunday 29th July 2018
9.00am—12.00pm**
