

Fruit Tree Pruning Workshop

Saturday 30th July

Presented by experienced
Kingsvale orchardist

Robert Fitzpatrick

Boorowa Community Landcare Group, together with South East Local Land Services invites you to a 'hands on' workshop for the home orchardist.

The aim of pruning fruit trees in the home garden is to assist the tree to produce reliable quality crops, with good size fruit on a manageable size tree.

If you've ever wondered if you are pruning your trees correctly, then this is the workshop for you.

Gary & Anne Johnson, who have a broad selection of examples in their garden in Boorowa, have kindly offered to host the day at their property 'Tulangi' on the Kenyu Road.

In winter, it's tempting to stay inside where it's warm, but a little bit of effort pruning fruit trees will pay off.

Boorowa Landcare Members Activity

When: 9.00am—12.00pm
