

24TH MARCH, 2017

ENERGY OPTIONS FOR THE MURRAY REGION

Energy for Today and Tomorrow

In this forum, there will be discussions on energy needs and issues for business & industry and also explore the various options of renewable energy which are available locally to the community. Topics covered include solar power, geothermal heating and cooling, & battery storage solutions, Plus stories from local farm business about their experiences with using renewable energy alternatives.

Visit Industry stands & displays – bring your bill for a free energy assessment!
