

# FREE Family Night Stalks

Have you ever wondered what species of birds, mammals and insects are living in our local landscapes? What about all the strange plants that you cannot identify? The Murrumbidgee Landcare Cross Property planning Project is funding flora and fauna surveys in the area which commence in September.

In conjunction with this work, Murrumbidgee Landcare invites you and your family along to a free information evening and Night Stalk.

Each night will include a Night Stalk and presentations from Alison Elvin, Natural Capital; Dr Fiona Christie, University of Melbourne; and Mason Crane, Australian National University who will discuss how the surveys will be conducted; what we may find now and what has been found in the past; and the equipment that can be used to monitor fauna (including the use of remote sensor cameras).

Humula Recreation Grounds  
Thursday 12 September 2013  
5.30 – 8 pm

Toole's Creek TSR, Book Book  
Friday 13 September 2013  
5.30 – 8 pm

**Come along, have dinner, a chat, and join us for a walk through the bush to see exactly what is lurking outside.**

**Registration:** The evening is FREE (both nights are the same). Please RSVP for catering purposes by Tuesday 10 September 2013 to Nicole Maher, Murrumbidgee Landcare: Phone: 0487 995 776 or [nmaher@murrumbidgeelandcare.asn.au](mailto:nmaher@murrumbidgeelandcare.asn.au) or Jacinta Christie [jchristie@murrumbidgeelandcare.asn.au](mailto:jchristie@murrumbidgeelandcare.asn.au)
