GUEST SPEAKER: GINNY STEVENS

Ginny is the founder of ACTIVE FARMERS.

She is passionate about agriculture and passionate about keeping active.

Through exercise and interaction, participants become more aware of their health and develop a greater sense of community. Why is it that we ensure our cars and machinery are fuelled and serviced properly, but we run ourselves below optimum levels? Like a car that is not well fuelled and serviced, we don't run efficiently and run the risk of breaking down. Active Farmers is all about ensuring clients are better fuelled and serviced to tackle the stresses of modern farming life.

Find out more..... join us at the Thomas Blamey for our AGM and listen to Ginny's story.
