

NEST BOXES & BIODIVERSITY ON FARMS

NEST BOX PROJECT - FREE NEST BOXES

Murrumbidgee Landcare Cross Property Planning (CPP) Project has funded the installation of around 100 nest boxes across 27 properties in the area. Join us to learn more about the role, design, installation, maintenance and monitoring of nest boxes.

We will also have nest boxes to give away to the first 8 interested landholders.

BIODIVERSITY ON FARMS

You will be surprised at the diversity of our flora and fauna.

Guided by ecologists Mason Crane from the Australian National University (ANU) and Ian Davidson from Regeneration Solutions, Wangaratta, learn about the different bird species hiding in our trees and discover what is lurking underfoot and beneath our rocks and timber.

CROSS PROPERTY PLANNING PROJECT

Funded by:

JOIN ECOLOGISTS MASON CRANE AND IAN DAVIDSON TO DISCUSS THE ROLE OF NEST BOXES AND FOR AN INFORMATIVE LOOK AT THE BIODIVERSITY IN OUR PADDOCKS. ALSO COLLECT A FREE NEST BOX FOR YOUR OWN PROPERTY
