

FarmLink Research

Windrow Burning Demonstration

Strategies to reduce resistant weed seed banks

communication - coordination - collaboration

FarmLink Research in co-operation with Australian Herbicide Resistance Initiative (AHRI) will conduct a demonstration on how to safely and successfully burn windrows to reduce weed seed banks.

Rod Messina, a farmer from Mullewa, WA burns 10,000 ha of windrows each season. He will discuss the do's and don'ts of the practice and give a practical demo on wheat and canola stubbles. He will also discuss herbicide resistance problems and other strategies used to control herbicide resistance in WA.

3.00 pm Thursday 15th March, 2012

Location: Peter, Lyn and Jason Coleman's property, News Lane, Temora
Free BBQ and drinks provided after demonstration.

Directions: From Temora take Old Cootamundra Rd past the GrainCorp bulk storage facility, 10km out turn right down News Lane, continue to the field day signs.
